Curriculum for Advanced Applicator Technicians (CAAT) Project

KEY SUCCESS IN YEAR 1:

- Successfully created an Advanced Applicator Technician Associate in Applied Science (AAS) degree and Retail Operations Certificate program.
 - First college to offer an Applicator Technician degree
 - Created 4 new courses specifically for Applicator Technicians
- Stakeholders in the agriculture retail industry are providing “school to work” programs for students. Includes tuition reimbursement, books, employment contract upon graduation of the program
- First cohort of students (11 total: 1 female – 10 male) entered program in fall 2020.
