

## Project DELIVER Vacuum & Thin Film Technology Program Normandale Community College, Bloomington, MN 2020 NSF ATE Principle Investigators Conference, October 19-23, 2020

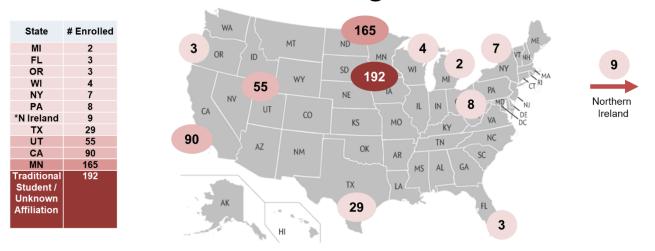

Project DELIVER has an impact on workforce development, using telepresence and an equipment trainer system to offer real-time, hands-on courses to students and workers around the country.

DELIVER has served 215 student participants, over half from distance locations

33 students completed the Vacuum Technology Certificate curriculum during the award period. 13 of those students were offsite - CA, UT, TX.

## Reach of Vac Tech Program since 2014

## Distance Education and Learning in Vacuum Technology for Employment Readiness (Project DELIVER)
