

Improving the Biotechnology Internship Experience to Better Prepare Student Technicians for the Modern Workforce

Main Goal:

To better prepare students for successful entry into the Biotechnology workforce as laboratory technician

Project Objectives

-  Expand the Biotechnology community and our industry partners serving our current students and K-12 students.
-  Amplify Biotechnology essential skills training for students.
-  Enhance "In-house" experience for Valencia students.

Grant Activities

-  Hire a part time partnership coordinator.
-  Complete needs analysis from our current industry partners.
