Plug in to NSF ATE grant 1800657

Spartanburg Community College is using a Business and Industry Leadership Team to co-lead the process to strengthen technician education in networking/cybersecurity.

What — Business and Industry Leadership Team (BILT) ensures the cybersecurity curriculum aligns with business needs

Who — BILT members represent technology in the fields of: Manufacturing, Automotive, Education, Security, Health/Hospitals, Finance, Pharmacy Technology

When — Quarterly meetings to review and update Knowledge, Skills, and Abilities (KSAs) and industry trends, & mentorship

Why — Recruiting industry leaders builds partnerships, validates current job skills required of graduates, and guides curriculum changes for a responsive and relevant program.
