

Evaluator Biographical Sketch Template for National Science Foundation (NSF) Proposals

This template was created by EvaluATE (evalu-ate.org). It is based on the National Science Foundation's guidelines for preparing biographical sketches for senior project personnel, which are available at bit.ly/bio-2017. The information about what evaluators should include in Products and Synergistic Activities sections are EvaluATE's suggestions, not NSF requirements. The biosketch must not exceed two pages.

Evaluator's Name

PROFESSIONAL PREPARATION

(List academic degrees and any pertinent certificates.)

Undergraduate Institution	Location	Major	Degree	Year
Graduate Institution	Location	Major	Degree	Year
Postdoctoral Institution	Location	Area		Years
Certificate-Granting Institution	Location	Area	Certificate	Year

APPOINTMENTS

(List employment history in reverse chronological order.)

Dates	Job Title	Employer
-------	-----------	----------

PRODUCTS

(List up to ten products that demonstrate your experience and competence in evaluation and knowledge of the proposed project's discipline. Examples may include publications, reports, and evaluation tools. All products must be citable and accessible. Include full reference information, including URL, if available.)

SYNERGISTIC ACTIVITIES

(In paragraph form, list up to five examples that demonstrate your expertise in evaluation, especially as it pertains to the proposal. Examples may include ongoing or completed evaluations; development or adaptation of evaluation tools; leadership roles in the evaluation field; and invited lectures, presentations, or workshops on evaluation. If you have prior experience working in the proposal's discipline, describe that as well.)
