

Designing a Corporate College

Webinar Handout for May 10, 2013

Presenters

Rob Clancey, President of the [National Council for Continuing Education and Training \(NCCET\)](#) and the Director of [Polk State Corporate College](#)

Dr. Eric Roe, Director of [Applied Technology at Polk State College](#)

Description

Community colleges face a perfect storm: industry is seeking opportunities for very customized approaches to training and education and the colleges are facing budget pressures that new sources of revenue can help mitigate. Enter the corporate college—and the changing business landscape. What are corporate colleges? How do they work? How do they run? What is the relationship to the community college? And more importantly, do they make money? Join an experienced panel and explore the ins and outs of corporate colleges.

Webinar Resources

The webinar recording, slides, and handout will be available in the NetWorks Digital Library. To access, go to www.matecnetworks.org, and Keyword Search: **Corporate college**
