Blended & Flipped Learning: Practical Applications
Webinar Handout for September 21, 2012

Presenter
Jerry Overmyer, jerry.overmyer@unco.edu

Mathematics and Science Teaching Institute Outreach Coordinator, University of Northern Colorado

Description
Flipped Learning is a subset of Blended Learning and it is taking the instructional world by storm!
It is easy to say flipped means a focus on working with students instead of lecturing to them. But what does that actually mean and how does it work in practice? Join our presenter, a dynamic advocate of the flipped model, as he describes his own experiences as well as others, in implementing the practice.

Webinar Resources
The webinar recording, slides, and handout will be available in the NetWorks Digital Library. To access, go to www.matecnetworks.org, and Keyword Search: webinar Blended Flipped Practical Applications
