Clark State Agriculture Department 2019 Precision Ag Workshop

Dates: June 10 – 11, 2019

Location: Clark State Community College, 570 E. Leffel Lane, Springfield, OH 45505

Capacity: Limited to 15 participants

Description: This workshop is designed for high school agriculture/STEM teachers to learn about the emerging precision technologies in agriculture. The workshop will provide many opportunities and resources that will help integrate these concepts and technologies into the classroom. Participants will use state-of-the-art equipment, software, and other media to experience these technologies with an emphasis on hands-on activities.

Compensation: Each participant will receive a \$200 stipend after completing the workshop and workshop evaluation. Participants will also receive teaching materials and a certificate of completion. The stipend and other items are courtesy of the National Science Foundation, Advanced Technological Education Grant #1601512 that was awarded to Clark State's Agriculture program to further develop its Precision Agriculture program offerings and educational efforts.

Additional Details: Qualified workshop graduates will be given the opportunity to teach AGR1750 Precision Agriculture via the College Credit Plus program at their location(s) for transcribed credit with Clark State.
